President's Report

Greetings and salutations!

Most of our current club officers have held their positions for several years. It is time for a change, I have held the President's office for 4 years and the time has come to let someone else enjoy this job. Please talk to me or any other officer if you are interested in getting nominated for a club position, ASAP. Something to think about, as our club elections are just around the corner (at the November club meeting), please volunteers for a position.

Please get your bloody baron's ready, combat time is here! Our July event will feature combat! More details will be posted on the dry erase board at the field and by club wide e-mails.

Notice: Hobby Town is now stocking motors and speed controller for the bloody baron combat planes. Grab one before your buddy beats you to it. You can get the foam from Dollar Tree (2 sheets for \$2.00) a real bargain!

July, the fun continues!

With combat flying, grilling & chilling, and night flying taking place every Thursday, our airfield is the place to be this summer. Don't wait for the weekend to fly, come on and add Thursday evenings to your flying schedule with all of your friends.

Reminder; our Halloween Fun-Fly will have a Weird Aircraft Competition complete with a cash prize for the winner!

Please be careful in the sun, bring water and hydrate yourself!

Thanks! Clear skies, smooth air, and safe landings!

Anthony Hall
JCRC President
E-mail: president@flyjrc.com

Make-A-Wish

As you can see from the pages that follow a young man named Jacob visited our field in June. He was brought to the field in a very very long limousine with family members. Many of our club members pitched in to make it a very special day. He had made the request to fly a radio controlled helicopter.

Craig Quillen, Klaus Kogler, and Michael Lick showed Jacob how a helicopter can perform. Michael Lick helped him to fly a Blade. Jackson Bernard allowed Jacob to fly his mini quadcopter. He was also able to fly a Phantom. Anthony Hall let him take the sticks of his very large powered glider. After all that Jacob was able to fly a FPV Bixler while wearing goggles. Jerry Black was his spotter and had him on a wireless buddy box. It was great. He climbed, looped, and was often headed toward the ground to be saved by Jerry. He flew until the battery was gone while Klaus let the family see using his goggles. It was a very rewarding day for all and showed everyone that everyday that we can fly is special.*

The Bixler returns home.

*I know I have left out the names of others who helped out on this day. I apologize but those are the only names this old man can remember.

Coming Events

July 9th, Kingsport Funfest Demo. (Date may change, keep watching for updates)

July 23rd – Bloody Baron Combat at the field

Aug 13th - 3rd Annual National Model Aviation Day at the field.

Sept 3rd – Club Picnic & Scale Fun-Fly.

Oct 1st – Second Workday.

Rod Snyder Places 2nd in The Top Gun Scale Invitational

Rod Snyder, a member of JCRC placed 2nd in this years Top Gun Invitational held in Lakeland, Florida. His Snyder Aerosports Team was competing in the Unlimited Class. Rod's model was a 1/6-scale MIG-15. The MIG's static score was 95.667 and had a total score of 191.084. It has a 78-inch-wing-span and is powered by a King Tech 120 turbine.
